Subject: RE: Upcoming call with Earthjustice - Centreville, IL

Here's what Debbie Chizewer sent:

As background, I am sharing this February newspaper [article](#) about the low-income African-American community of Centreville which has persistent failures of its sewage infrastructure—leading to backups in residents' homes and yards. This is a health threat that may be worsened if it turns out that COVID-19 may spread through raw sewage. Current flood season only exacerbates these concerns.

She originally wanted to talk about the RFA but I told her we couldn't talk about an open RFA but I said we could talk without mentioning the RFA.

-----Original Appointment-----
